STAT

Dear [Redacted]

STAT

I want to exoress my appreciation for the splendid tour of the [Redacted] system facilities during 24-25 January 1963, made possible by your interest and support in our behalf.

STAT

Observation of structural features and operational equipment is one of the more satisfactory means of obtaining information that has direct application to our needs. The tour of [Redacted] operations combined with expert technical guidance provided the group with this information in a most satisfactory manner. The entire tour was most worthwhile and your generous hospitality added considerably to the thorough enjoyment of the visit.

STAT

My congratulations on your new headquarters building. I have received word of its many advancements and when you next visit this area would like to compare notes and show you through our new facility.

Many thanks again for your excellent assistance.

Sincerely,

[Redacted]
